Printing Pathology and Radiology Results

A patient may require a copy their pathology / radiology results. These can be printed on your letterhead and provided to the patient.

1. From the patient record, select **Pathology & Radiology** from menu.

2. Select relevant Results Tab; either Pathology or Radiology (in Banner).

3. Select **Print** button next to relevant Results.

    a. The PDF will be generated and displayed on screen.

4. Select the print icon and the result will be printed.

Please Note: These results will use your standard letterhead template if set up in System Administration>Correspondence>Printing Templates>XSL-FO
