Lifecycle

Pre-Admission

This phase covers all activities prior to the point of admission. CareRight allows you to plan an Admission for when a patient will arrive.

Read more about Pre-admissions - Overview, Checklists, Referrals, Assessments, Medications, Online Eligibility Checks (OEC, ECM, ECF and ECO) to discover the tools available.

You can have multiple pre-admissions open at any time.

Admitted

This represents when a patient is legally admitted to your hospital.

Main article: Admit

You can only have one open admission (non-discharged) at a time.

Theatre/Treatment

Discharge

Main article: Discharge

If you are required to perform Statutory Government Reporting then you will need to admit and discharge patients.

 Important note

Exclusion of Admissions from HMDS (WA Health)

CareRight version 6.86 and above, now have a additional tick box to remove an Admission from being added to the HMDS Stats reporting. This only applies, if the Location of the admission is in Western Australia.

Statutory Reporting

☐ Ignore in HMDS submission
