

My Patients List

Last Modified on 26/05/2019 2:35 pm ACST

Features of My Patients List include:

- The My Patient List allows you to keep a list of your own patients for quick access.
- These patients will appear under the My Patient List whenever you access the Patients tab.
- The list is useful if you know you will need to access a patient a number of times over the next day, week, month, etc.
- By adding them to the My Patient List, they can be accessed quickly and easily without having to perform a search.

How to Add a Patient to the My Patients List

1. [Search](#) for a patient.
2. From the results grid, click **Add to My Patients List**.

How to Remove a Patient from the My Patients List

1. Go to the My Patients List via Patients.
2. Find the patient.
3. Click **Remove**.
