Summary of Workflow

Summary of Workflow

This guide will walk you through using the Theatre Module based on the workflow below.

Pre-Admission:

1. Create a Theatre booking (procedural appointment).

2. Book a follow up / review appointment.

3. Create an appointment letter for Patient via the Appointments screen.

4. Edit a Theatre List including default Anaesthetist.

5. Perform pre-admission planning for the Theatre List.

6. Create Theatre List to send to the hospital.

Post-Admission:

1. Mark the appointment as complete.

   a. This creates an entry in Patient > Diagnosis & History > Operations.

2. Create operation reports to send to Hospital.

Prerequisites

This section presupposes an understanding of the use of the Appointment module to manage appointments. If you are not familiar with the Appointment module then please read through that section before proceeding.
