

Delete an Image Category

Last Modified on 30/03/2019 10:44 pm ACDT

This article is part of the systems administration guide. You will require administration access to view the pages mentioned in this article.

You can only delete an image category that has not been used. The delete option will not show if the category has been used - in this case you can disable the category.

To Delete an Image Category:

1. Click **Administration**.
2. Click **Patients**.
3. Click **Image Categories**.
4. The **Delete** button will show on the right hand side of the list - click to Delete
5. No warning will be given - deletion is final

To Disable an Image Category:

1. Click **Administration**.
2. Click **Patients**.
3. Click **Image Categories**.
4. The **Disable** button will show on the right hand side of the list - click Disable

To Enable a Disabled Image Category:

1. Click **Administration**.
 2. Click **Patients**.
 3. Click **Image Categories**.
 4. The **Enable** button will show on the right hand side of the list - click Enable
