

Medical Tests

Last Modified on 01/07/2019 12:56 am ACST

This article is part of the systems administration guide. You will require administration access to view the pages mentioned in this article.

In this area, the different types of medical tests can be configured for Pathology and Radiology (i.e. Full Blood Test / CT Scan). The Medical Tests set up in this section will then appear in the Pathology & Radiology requests.

To create a new Medical Test

1. Click **Administration**.
 2. Select **Correspondence**.
 3. Select **Medical Tests**.
 4. Existing Medical Tests will display, in the blue banner two options are available:
 - a. Pathology
 - b. Radiology
 5. Select **New** button, the add new screen will display.
 6. Enter a code.
 7. Enter **Description**.
 8. Specimen (this would be the typical type needed).
 9. Add any Instructions.
 10. Ensure you tick **Enabled** so that it appears in the Radiology/Pathology area.
 11. Select **Medical Test** button.
