

6.59 - Release Notes

Last Modified on 03/08/2019 8:23 pm ACST

Notice to Clients

In each release there may be new features and functions that require one or all of the following:

- Purchase of a module to access
- User Training
- Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Statutory Reporting

Release 6.59 includes the following Statutory Reporting updates that are required by 30th June 2019:

- HCP
- HMDS
- ISACC
- PHISCO
- QHAPDC
- TSMS
- VAED

Release 6.59 also includes the ICD-10 update to the 11th Edition (there is a licence required for this - please contact us for more information).

Release Notes for CareRight 6.59

Task #	Summary	Changes	Reference
