6.61 - Release Notes

Last Modified on 08/10/2019 12:30 pm ACDT

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.61

Clintel Ref #	Summary	Changes	Reference	Manual Type
70670	Support of VAED statistics.	Added support for inclusion of statistical values for hospitals reporting to VAED and migrating to CareRight from another system during a financial year.	http://careright.knowledgeowl.com/help/statutory-reporting-periods	System Admin
70699	Additional configuration options for the General Ledger Audit Code value.	Introduced new functionality to support the definition of GL Audit Code values for admission categories and items.	http://careright.knowledgeowl.com/help/general-ledger-codes	System Admin
70743	Patient account editing restrictions.	Tightened restrictions on patient account editing to ensure that account type, location and account/medical provider fields cannot be edited if the account	http://careright.knowledgeowl.com/help/edit-a-patients-details	User Guide

		has any associated invoices, receipts or opening balances.		
70744	Clarify rebates paid on invoices.	Due to potential differences between payable Medicare Benefits ('Rebate Price') and the actual amount paid by Medicare, a new invoice field called 'Rebate Paid' has been included on invoices when applicable.	http://careright.knowledgeowl.com/help/reconciliation http://careright.knowledgeowl.com/help/process-medicare-remittance-advices	User Guide
70745	Introduced new Loan Account functionality.	Expanded CareRight feature set to include support for new Loan Accounts. Loan accounts are used when a business has loaned money to a patient to cover an invoice and the patient will pay back the loan.	http://careright.knowledgeowl.com/help/loan-accounts	User Guide
			http://careright.knowledgeowl.com/help/loan-accounts-admin	System Admin
70748	Introduced new custom export functionality.	New admin and end-user functionality has been introduced that enable users to run custom exports (Admin-configured) and view export histories.	http://careright.knowledgeowl.com/help/reporting-custom-exports	User Guide
			http://careright.knowledgeowl.com/help/custom-exports	System Admin
70838	Addition of patient bank account details.	Added bank account fields to patient records (i.e., account name, BSB and account number).	http://careright.knowledgeowl.com/help/edit-a-patients-details	User Guide
70839	Display loan accounts.	Included additional rows on the Invoices and Claims screen to display loan account details.	http://careright.knowledgeowl.com/help/accessing-invoices-and-claims	User Guide
70947	Updated screens to reflect CareRight User Interfaces.	Updated all IHC, PCI and IMC claims to match CareRight User Interfaces.	http://careright.knowledgeowl.com/help/batch-claims	User Guide

70954	Articulated specification of line item search criteria.	Expanded instructions to describe definition of search criteria for line items during invoice creation.	http://careright.knowledgeowl.com/help/raising-an-invoice	User Guide
70964	Introduced functionality that enables multiple guarantors to link to the same Medicare Participant.	Removed the ability to link to Guarantors from the Medicare Participants Screen. Introduced a new Medicare Participant field in the Edit a Guarantor screen.	http://careright.knowledgeowl.com/help/medicare-participants http://careright.knowledgeowl.com/help/edit-a-guarantor	System Admin
70965	Separate guarantor codes.	Re-positioned Code field in Edit Guarantor screen and separated out the HCP Code to a new location.	http://careright.knowledgeowl.com/help/edit-a-guarantor	System Admin
70984	Introduced links for easier invoice navigation.	Added links between line items, invoices, allocations and receipts.	http://careright.knowledgeowl.com/help/allocations	User Guide
70997	Introduced functionality designed to manage batches without processing reports.	Automatically move batches to a failed status when no processing report exists after 10 days. Also provide a warning message regarding the lack of a processing report.	http://careright.knowledgeowl.com/help/batch-claims	User Guide
71074	Introduced support for printing allergies on patient labels	Admins can now include XML code in custom label definitions to create labels, such as wristbands, that include patient allergy information.	http://careright.knowledgeowl.com/help/custom-patient-labels	System Admin
