6.64 - Release Notes

Last Modified on 02/04/2020 12:03 pm ACDT

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.64

Clintel Ref #	Summary	Changes	Reference	Manual Type
72245	Added new Claim Contracts feature.	Expanded contract management system to include Claim Contracts to support IHC claims to health funds.	http://careright.knowledgeowl.com/help/contracts	System Admin
73915	Fixed a situational issue relating to referral warnings.	Fixed an issue wherein a warning would not appear for an expired referral when a new contact was added. The referral warnings now work as expected.	n/a	n/a
73916	Introduced a new Appointment Status/Type feature.	Administrators can now set appointment types and statuses to "disabled" so that they can be unavailable for selection, if needed.	https://careright.knowledgeowl.com/help/setting-up-appointment-types https://careright.knowledgeowl.com/help/set-up-appointment-statuses	System Admin
	Streamlined new prescription	Introduced new functionality that automatically launches the Add		

73917	process for Medical Providers.	Drug functionality when a Medical Provider creates a prescription on CareRight.	https://careright.knowledgeowl.com/help/medications	User Guide
73918	Enabled default patient profile views.	Introduced new feature that enables users to set the default view when viewing a patient profile.	https://careright.knowledgeowl.com/help/how-to-view-your-user-profile	User Guide
73919	Updated Appointments List.	Re-styled Appointments List to support multi-line notes and also introduced a more UX-friendly design to facilitate greater ease-of-use.	https://careright.knowledgeowl.com/help/appointment-list	User Guide
73924	Introduced support for split printing of HC21 form.	Users can now use multiple printing options, including split printing, for the HC21 form. Printing can be done from the patient summary, claim record or claim view screens.	https://careright.knowledgeowl.com/help/global-settings	System Admin
			https://careright.knowledgeowl.com/help/print-hc21-form	User Guide
74092	Added item restriction settings to claim contracts.	Admins can now opt to send claim contracts as paper-based claims and also opt to receive a warning if a submitted invoice does not contain an accommodation line item charge (which would be expected).	https://careright.knowledgeowl.com/help/contracts	System Admin
74165	Updated interface for referrals.	Introduced new interface for the referrals screen wherein an issue was fixed with the treatment of Referrals Out and a new UI has been introduced to support those changes.	https://careright.knowledgeowl.com/help/referrals	User Guide
	Enhanced	Updated Medicare Batch Payment		

74166	Medicare Batch Payments screens.	screens to include Medical Provider data.	https://careright.knowledgeowl.com/help/reconciliation	User Guide
74167	Usability improvement to medication searching.	Enhanced medication search functionality via introduction of the Preference Drugs checkbox, which prioritises search results based on the Provider's prescription history.	https://careright.knowledgeowl.com/help/medications	User Guide
74168	Added default Service Provider functionality based on Service Location.	Administrators can now define default Pathology and/or Radiology Service Providers for a Service Location. When a user creates a new Radiology or Pathology request, the Service Provider will be automatically populated when a Service Location is selected. This selection remains constant for the user even when the Service Location changes.	https://careright.knowledgeowl.com/help/service-locations	System Admin
			https://careright.knowledgeowl.com/help/creating-a-new-radiology-request	
			https://careright.knowledgeowl.com/help/pathology-radiology	User Guide
74169	Enhanced usability of Correspondence screen.	The Correspondence screen now prioritises Letters to Professional Contacts above Letters to Patients — this is for enhanced usability, as the majority of letters from Medical Providers are sent to other Professional Contacts.	https://careright.knowledgeowl.com/help/correspondence	User Guide
74170	Removed Delete Prices feature from Rates Definition screen.	Removed Delete Prices functionality from the Rates Definition interface. Price deletion is still supported via bulk deletion feature introduced in v6.63.	https://careright.knowledgeowl.com/help/rates-definition	System Admin

74171	Moved prediction code options to generic codes.	In order to address a duplication issue, prediction table options have been moved to generic codes.	https://careright.knowledgeowl.com/help/generic-codes	System Admin
74172	Expanded functionality of Today's Appointments feature.	Enhanced the functionality of the Dashboard's Today's Appointments feature by introducing a dynamic header that shows today's day & date as well as navigation functionality that enables users to browse between appointments, select a specific date or return to today's date.	https://careright.knowledgeowl.com/help/qrg-careright-navigation https://careright.knowledgeowl.com/help/global-settings?widget=false	Quick Reference Guide System Admin
