

6.66 - Release Notes

Last Modified on 16/09/2020 4:19 pm ACST

About this Release

In each release there may be new features and functions that require one or all of the following:

- Purchase of a module to access
- User Training
- Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.66

Clintel Ref #	Summary	Changes	Reference	Manual Type
74748	Updated on-screen verbiage to avoid confusion.	On the Rate Contracts screen, changed references of "Rate Table" to "Rate Definition" to avoid confusion of the use of "Rate Table" in CareRight's Accounting Administration features.	https://careright.knowledgeowl.com/help/contracts	SysAdmin Guide
74736	Improved placement and usage of Accident Date field.	During a pre-admission, the "Accident Date" field now automatically appears below the "Compensation Claim" field when the latter is selected.	https://careright.knowledgeowl.com/help/pre-admissions	User Guide
74927	Addressed an issue relating to the clearing of transaction data.	Fixed a validation error issue that resulted in the clearing of transaction data entered on-screen.	n/a	n/a
