6.67 - Release Notes

Last Modified on 24/06/2020 2:10 pm ACST

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.67

Clintel Ref #	Summary	Changes	Reference	Manual Type
76229	Enhanced invoice entries.	Improved invoice usability by Including Service Date on invoices (i.e., user no longer needs to click Show to view service date).	https://careright.knowledgeowl.com/help/viewing-invoices	User Manual
76230	Improved user experience when performing online patient verifications (OPVs).	Introduced a close icon ("x") on the "Please wait" window when an OPV is running, enabling users to cancel the process if it is taking too long.	https://careright.knowledgeowl.com/help/opv	User Manual
76231	Fixed an issue relating to user correspondence.	If "My Correspondence" is enabled in a user profile, then it will appear at the location level.	https://careright.knowledgeowl.com/help/correspondence	User Manual
76232	Fixed an issue relating to CareRight functionality when early dates are entered.	Addressed functional issues that arose from the input of early dates (e,g,, 1850). The system has been modified to no longer support the entry of years prior to 1900.	https://careright.knowledgeowl.com/help/edit-a-patients-details	User Manual
76741	Improvements to entire letter writing process to support ease-of-use.	Implemented usability improvements to the letter writing experience, including: PDF preview of a letter in a draft state, cleaning of pasted content (i.e., stripping out of HTML and non-printable characters), improved the letter-from-template generation process, and introduced control of	https://careright.knowledgeowl.com/help/create-a-referral-letter https://careright.knowledgeowl.com/help/create-a-patient-letter	User Manual

		behaviour of key via a user profile setting.		
74456	2021 Statutory changes	New reportable field values are available in Victoria for statutory reporting purposes.	https://careright.knowledgeowl.com/help/667-statutory-reporting-changes?widget=false	N/A
