

Patient Banner Configuration (Super User)

Last Modified on 19/08/2020 10:48 am ACST

1. Click Admin
2. Click Patient Settings
3. Tick or Untick options on Patient Header
4. Scroll down and Click Update Patient Settings

The screenshot displays the 'Patient Settings' configuration interface. At the top, a blue header bar contains a left-pointing arrow icon and the text 'Patient Settings'. Below this, a breadcrumb trail reads 'Dashboard / Administration / Patients'. The main content area is titled 'Patient Header' and contains a list of eleven toggleable options, each with a checkbox and a label. The options and their current states are as follows:

Option	State
Show Patient Image	Checked
Show Facility Code	Unchecked
Show MRN	Checked
Show CRN	Checked
Show Age	Checked
Show Date Of Birth	Unchecked
Show Facility	Checked
Show Phone Number	Checked
Show Primary Provider	Checked
Show Referrer	Unchecked
Show Address	Unchecked
Show Health Fund	Unchecked
