6.68 - Release Notes

Last Modified on 14/09/2020 9:59 am ACST

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.68

Clintel Ref #	Summary	Changes	Reference	Manual Type
78299	Introduced new logon option for Clintel Support users.	Clintel support users can now logon to CareRight via their Google Account. On first logon, a new user account is created and can be accessed via the Support tab in the Admin → Users screen.	https://careright.knowledgeowl.com/help/managing-users-and-providers	SysAdmin Guide
78319	Enhanced saving process for global system settings.	Improved the process of saving global system settings by introducing real-time saved changes for selection menus and auto-appearance of "Change" button for text-entry fields.	https://careright.knowledgeowl.com/help/global-settings	SysAdmin Guide
78320	Improved the user account creation process for staff members.	Added a "Create User" button to staff member profiles to support the creation of a provider's user account at any time.	https://careright.knowledgeowl.com/help/add-a-staff-member	SysAdmin Guide
78322	Addressed an issue relating to price creation during MBS updates.	In order to align with MBS benefit type allocations, we have updated CareRight to provide a null result when no benefit is applicable (i.e., no price is created).	https://careright.knowledgeowl.com/help/qrg-updating-mbs-rates	QRG
78323	Fixed an issue relating to the display of the Administration section.	Addressed an issue relating to the display of the Admin section when creating a new account. The behaviour has now been modified to ensure that the Admin section only appears after editing an account.	N/A	N/A
78391	Introduced support for reprocessing of Medicare requests.	Added a "Reprocess" button to Medicare Requests that enable users to reprocess requests for the purpose of creating reports that were not produced.	https://careright.knowledgeowl.com/help/process-medicare-remittance-advices	User Guide
	Addressed issue relating to the	Fixed an issue that displayed metric validation		SysAdmin

78395	configuration of CareRight metrics.	messages incorrectly.	https://careright.knowledgeowl.com/help/metrics2	Guide
