Definition of Program Waitlist?

Programs have a finite number of participants. Patients can be waitlisted for a specific program and when space is available patients in the waitlist will be contacted to see if they want to attend the program.

Enrol Column and Enrol Button

The Enrol column displays the number of patients currently enrolled (first value) out of the number of maximum enrollees (second value).

The Enrol button is used to view any system messages relating to the waitlist and to display the users currently on the waitlist for the program. To use, click **Enrol**.
