6.71.5 - Release Notes

Notice to Clients

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with and how they impact on your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a RedMine ticket.

Release Notes for CareRight 6.71.5

Clintel Task #	Summary	Changes	Reference
86530	Extension of bundled Service Claim Contract for Chemotheraphy to support different PSG segments.	Claim Contracts were extended to allow defining different codes to be assigned . Two new fields created called "Bundled Accom Code" and "BundledTheatre Code". These fields will be used to populate the ACD segment instead of the existing service code and service code type fields. (Note: The existing Service Code and Service Code Type fields will continue to populate the SVB segment). If the Bundled Accom Code field is blank the Bundled Accom is set to AUTO then when populating the ACD segment the values from the Service Code and Service Code type will be used.	https://careright.knowledgeowl.com/help/contracts System Administration Configuration is required for this feature.
