

# Patient Account Overview

Last Modified on 02/06/2021 2:33 pm ACST

This article is part of the systems administration guide. You will require administration access to view the pages mentioned in this article.

## Overview

Patient Accounts are divided to different accounts who are responsible for paying the invoice. The person responsible for the payment is called: [Guarantor](#).

By default, CareRight has 6 Patient Accounts:

1. Private - Used for Patient Interactive Claims (PCI). Up to 5 Private Accounts can be configured - see [Edit Private Accounts](#). Private Account Types can be used when Providers have different rates for different situation/ different classes of Patients i.e. Concession Rates, Military personal etc
2. Workers Compensation -
3. Legal -
4. Medicare - Account used for Medicare Bulk Billing Services
5. DVA -
6. Health Fund - Account used for claiming against private health funds , such as In Patient Medical Claims (IMC) In Hospital Claim (IHC)

User Interface:

[Add a new Patient Account](#)

To assign a rate table to the Patient Account see: [Assign rate table to Patient Account](#).
