## Accessing Medicare Processing and Payment reports

Processing Report will be available from Medicare for each successful submission of Batch Claims.

Medicare will provide a processing report for batch claims submitted online, which will tell us how much Medicare is going to pay.

This will be available normally within a day or two.

1. Click **Locations** from the Dashboard
2. Select the Location
3. Select **Batch Claims** from the left menu.
4. Click on **Online Batch Claims**.
5. Click **Fetch Processing Reports** - CareRight will communicate with Eclipse to fetch the Processing Report

Medical Provider	Batch Number	Batch Date	Batch Type	Batch Price
Dr Mary SMITH	202106#0051	04/06/2021	Medicare	\$28.60

This can also be fetched for individual batches in similar way.

6. Once the Processing report is available, it will be clear how much Medicare is going to pay for individual invoices in the batch.
