6.74.3 Release Notes

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure the correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with, and how they impact your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a Redmine ticket.

Release Notes for CareRight 6.74.3

Enhancements

LDAP Configurations

Full article:

System admin Manual (Configuration) : https://careright.knowledgeowl.com/help/ldap-interface

System administrators will find the LDAP configuration settings have been moved from Admin > Global Settings to System Administration > Users and Groups > LDAP.

CareRight now supports a more nuanced *LDAP Search* for finding users in multiple LDAP trees. Refer to LDAP Interface for details.
