

6.78.1 Release Notes

Last Modified on 02/03/2022 10:41 am ACDT

About this Release

In each release there may be new features and functions that require one or all of the following:

- Purchase of a module to access
- User Training
- Specific process to be used to ensure the correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with, and how they impact your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a Redmine ticket.

Release Notes for CareRight 6.78.1

Major Features

CME API v4.1

Enhancements

Appointments > Advanced Search

<https://redmine.clintelsystems.com/issues/92241>

Customers wishing to use the legacy appointment advanced search screens can re-enable this functionality under Global Settings.

Episodes > HMDS Funding Source

<https://redmine.clintelsystems.com/issues/92160>

Users may now choose to override the automatically calculated funding source on an admission/episode.
