

Tyro overview

Last Modified on 10/10/2022 4:30 pm ACDT

CareRight integration with Tyro offers a seamless way of handling payments and refunds for Clients.

Functionality in CareRight are:

- Record a payment taken via Tyro
- Process a refund for a payment taken via Tyro
- End of day Tyro Reconciliation
- A record of all transactions are recorded in CareRight
- User access are controlled by permissions
- Can manage multiple Merchant ID

Important Note:

The integration with Tyro does not include Allied Health and Easyclaim in CareRight.

Clients are required to raise a ticket in Redmine if Tyro is to be setup.
