

6.85 Release Notes

Last Modified on 30/01/2023 3:25 pm ACDT

About this Release

In each release there may be new features and functions that require one or all of the following:

- Purchase of a module to access
- User Training
- Specific process to be used to ensure the correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with, and how they impact your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a Redmine ticket.

Release Notes for CareRight 6.85

In this article:

- [Major Features](#)
 - [Anti Virus on File Uploads enabled by default](#)
- [Enhancements](#)
 - [Invoices & Claims > Remove uninvoiced admissions counts](#)
 - [Upgrade Grouper Version to 2022.3.2](#)
 - [Assessment Builder > Staff Member Picker filtering by Type](#)
 - [Assessment Builder > Provider Picker](#)
 - [System Administration > Admission Categories > Ability to mark fields required at discharge](#)
 - [Defects & minor enhancements](#)

Major Features

Anti Virus on File Uploads enabled by default

Previously, this feature was optional. In order to harden the CareRight application against malicious actors; this is now a product default.

IT System administrators will need to ensure they whitelist the ClamAV URLs described by <https://linux.die.net/man/5/freshclam.conf>

Enhancements

Invoices & Claims > Remove uninvoiced admissions counts

Due to poor system performance, the Invoice & Claims screens will no longer feature the **Uninvoiced** admissions counts for a location. The availability of this information is controlled by Global Settings > *Optimise Invoice & Claims*

Click [here](#) to access the update Guide

IHC	Uninvoiced	Unsent	Unpaid	Part Paid	Problem
BUPA Australia		0	2	0	2
Mock HF (TST)		5	2	0	0
Totals		5	4	0	2

Internal ref:97163

Upgrade Grouper Version to 2022.3.2

Grouper is now on v2022.3.2. An extract of the release notes is included below:

This version of Grouper Plus Content Services includes:

- Australia Refined (AR) grouper update - Version 11.0 now available.
You can read about the changes in AR-DRG v11.0 at:
<https://www.ihacpa.gov.au/resources/ar-drg-version-110>
- Activity Based Funding (ABF) update - Updated logic for COVID-19 flag
- Added the capability to process claims containing blank diagnosis and procedure codes
- DCL values are replaced by a new DCL flag where the DCL value is >0 in v11.0 only. ECCS continues to be displayed in keeping with previous grouper versions.

New 2 character values for separation mode are effective for v11.0. Details are available at: <https://meteor.aihw.gov.au/content/722644>

New descriptions are effective for the sex in AR-DRG v11.0. Details are available at: <https://meteor.aihw.gov.au/content/741686>

Known issues fixed in this release:

- Australian Mental Health Care Classification (AMHCC) - Care type no longer required when the value for setting = Community.
- Null admission date is now allowed for phase based care types.

Assessment Builder > Staff Member Picker filtering by Type

Our staff selector now takes an optional *type*, so particular groups of individuals can be shown; ie *Registered Nurse* or *System Administrators*.
