The Medications module allows you to access information about a patient's Medications History as well as raising new prescriptions.

1. Search for a patient.

2. Click **Show**.

3. In the Main Menu, click **Medications**.

4. The Medications screen will display. It has two sections:

    a. Current Medications (this data view can be re-sorted by Trade Name & Start date)

    b. Medications History (this data view can be re-sorted by Trade Name & Start date)

5. From this screen you can:

    a. Review Medications &Previous Prescriptions (select Tabs from the banner)

6. It also displays the following 4 buttons:

    a. M-Browse (MIMS Browse – if enabled)

    b. N Mims Prescription(if enabled)

    c. New Prescription

    d. M-New (Medications)

7. For Current Medications you can:

    a. Show: You can view Trade Name, Generic Name, Route, Instructions, Recorded time and date.

    b. Update Instructions:

    c. Expire

    d. Access MIMS data (full or Abbreviated)

8. You can also view the patient Medications History.
