

6.87.2 Release Notes

Last Modified on 25/05/2023 3:58 pm ACST

About this Release

In each release there may be new features and functions that require one or all of the following:

- Purchase of a module to access
- User Training
- Specific process to be used to ensure the correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with, and how they impact your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a Redmine ticket.

Release Notes for CareRight 6.87.2

In this article:

- [Accounting > Patient Accounts](#)

Enhancements

Accounting > Patient Accounts

Allows for a Private Patient Account to use an alternative rate table; ie: to be charged Health Fund prices but receive no rebate.

The screenshot shows a web form titled 'Details'. It contains several fields: 'Rates' (set to 'Private - Normal'), 'Override Rate For This Account' (with a dropdown menu open), 'Medical Provider', and 'Location'. The dropdown menu for 'Override Rate For This Account' is open, showing a search bar and a list of options: 'Private 1', 'MBS + 150%', 'Private 8', and 'Private 9'.

Field	Value
Rates	Private - Normal
Override Rate For This Account	Private 1
Medical Provider	
Location	

The medical provider must be opted in via *Enable rate overrides for private accounts*

Dr Barbara HOFFMAN
