Pattern and Other attributes

Assessments using a Patient Field will follow the same rules, patterns, and usage hints as the broader CareRight UI, ensuring consistency and user familiarity. While performing an assessment system will check the pattern and attribute for following fields.

Medicare number: Input fields are limited to 10 characters with no space.

DVA File number: DVA Numbers are matched for a correctness.

Medicare Number *	<input type="text" value="295416920"/>	
DVA Number *	<div><div>Save in 1Password</div><div> Please match the format requested. A valid Medicare Number. This is the 10 digit card number, no spaces</div></div>	
NDIS identifier *	<input type="text" value="123456"/>
