This requires your system administration to grant *immunisation viewer* or *immunisation editor* permissions.

This is integrated with MyHealthRecord - where a GP has provided a shared health summary, it is one click to transfer this to a new draft immunisation record.

Allergies and Adverse Reactions		Immunisations		
Penicillin allergy – Acute myocardial infarction – Drug allergy (disorder) <a href="#">Add</a>		Administered	Name	Sequence <a href="#">Add</a>
		31-Oct-2010	Flu vaccination (Comvax) (Comvax (Haemophilus influenza type b capsular polysaccharide vaccine 7.5 microgram + hepatitis B virus surface antigen vaccine 5 microgram) injection: suspension, 0.5 mL vial (trade product unit of use))	1
