7.5.0 Release Notes

About this Release

In each release there may be new features and functions that require one or all of the following:

· Purchase of a module to access

· User Training

· Specific process to be used to ensure the correct functioning

Please read the release notes and the corresponding manual pages to ensure that you understand the changes being made, what module they are associated with, and how they impact your business processes.

If you have any questions about anything in a release, please contact support either by phone or through a Redmine ticket.

## Major Features

Bed Capacity Management & Patient Flow

Main Article: **Room/Bed Availability & Reservations**, **Location Occupancy**

Room & Bed Allocation > Reduce same gender rules to strong warning, rather than block

Main article: Room/Bed Availability & Reservations

Allocate a Bed for Miss Beverly Morgan					
Room	**Bed**	**Status**	**Client**		
Consult Room C female Female Power	Bed W1 Female, Standard Bed	Open			Assign
Consult Room B male Male	Bed 1 Standard Bed	Open			Override and Assign
NOR Female	02 Female, Standard Bed	Open Notes	Miss June Test	Not available	

Charts > Capture altered calling criteria

## Locations > Pending Discharges

Topic: Discharge Planning & Discharge

The Location Dashboard now features a pending discharges list.

This allows you quickly and easily to see:

- Pending discharges today (by date or by admission status)
- Whether a discharge letter is completed
- Whether, if configured, a discharge assessment has been completed
- Access to the discharge plan

Care Plans & Shift Handover > See indicator of assessments to run

⚠️ **Experimental feature: This is not generally available to all customers at this time, and is subject to further revision.**

Main article: **Care Plans & Shift Handover**

Pre-admission > See link to Bed Allocation Assessment if configured

Main article(s): **Admission Category**

Admission Categories > Flag as *requires overnight accomodation*

To automatically pre-allocate a bed reservation, admission categories can be flagged as requiring overnight accommodation. Note: You will still need to correctly configure *same day band and other related fields for overnight admissions.*

Admission Category

Code* `Admission`

Description `Admission procedure`

☑ Default attending doctor to admitting doctor during admission

☐ Enable multiple theatre visits during admission

☐ Allow paper based IHC claiming without a DRG code

☑ Requires Overnight Accommodation

☐ Hide Procedures

☐ Hide Miscellaneous Service Codes

☑ Hide Births

☑ Hide Transports

☑ Hide Leave

☑ Hide FIM

☑ Hide SNAP

☐ PCOC assessments conducted

Update Admission procedure   **Cancel**

Tasks > Inbox > Filter by patient

We now include a patient filter in task inboxes.

Release Notes for CareRight 7.5.17

Statutory Reporting 2025

ICD-10 13th Edition

Warning: This version still ships with ICD 10 AM 12th Edition, due to a pending licencing discussion. We expect to resolve this prior to any production release / 1st July 2025.

CareRight now ships with an updated ICD 10 version, suitable for coding of admissions from 1st July 2025.

https://www.ihacpa.gov.au/resources/icd-10-amachiacs-thirteenth-edition

Diagnosis Cluster Identifiers (DCID)

https://www.ihacpa.gov.au/health-care/classification/icd-10-amachiacs/cluster-coding

https://meteor.aihw.gov.au/content/793121/Print?templateMode=Technical

When coding an admission, a new DCID data entry input is available.

Where there are multiple clusters, subsequent diagnoses can be added to new clusters.

Hospital Casemix Protocol (HCP) reporting

We've reviewed and updated CareRight's HCP reporting in the following areas:

- HCP 2025: Update to AR-DRG versions, to allow v12 to be selected
- HCP 2025: Mode of separation and Provider Number of Hospital to which transferred
- HCP 2025: Birth weight of infant, neonate, stillborn
- HCP 2025: Front end deductible (not applicable)
- HCP 2025: Sex
- HCP 2025: Care type
- HCP 2025: Other changes

As a general reminder and following communications by AHSA, we'd like to encourage customers to ensure they review the configured **HCP Codes for guarantors** against the published guides.

https://hospitals.ahsa.com.au/hc/en-au/articles/20563171395225-AHSA-fund-codes

VAED

We've reviewed and updated CareRight's VAED reporting in the following areas:

- VAED 2025: Add new Admitting/Discharging Unit/Specialty codes for Early Parenting Centres
- VAED 2025: Add code 999 to Triage Score on Admission
- VAED 2025: NDIS Participant Flag – reported by mental health care types
- VAED 2025: Add Diagnosis Cluster Identifier (DCID) for implementation in 2025-26

Note that VAED changes to **palliative care data modelling have introduced new fields** specifically:

- In an Admission, where PCOC data capture is **not used**, *Primary PCOC Phase Type* is now relabelled *PCOC Phase Type at Admission;* and continues to report as it did previously. A new field, *PCOC Phase Type at Separation* is available.

- Preferred Place of Death, distinct from the existing Place of Death is required by VAED over and above the PCOC v3 standard.

- Leave Days can be manually entered, where appropriate in a PCOC Phase. This is not directly linked to admission leave.

ISAAC/APC

- ISAAC/APC 2025: Add Diagnosis Cluster coding
- ISAAC/APC 2025: ICD 10 13th Edition

TSMS

- TSMS 2025: Gender vs Sex
- TSMS 2025: ICD 10 Changes, DCID

QHAPDC

- QHAPDC 2025 : Report DCID
- QHAPDC 2025 : ICD-10 13th Edition

HMDS

- ICD 10

PHISCO

- ICD-10-AM / ACHI / ACS Thirteenth Edition Implementation

PCOC v4

Not available

Defects & minor enhancements

- Fix Assistant translation
- Fix the assistant selection field not displaying by default
- Limit Send & Print buttons for Correspondence
- Correspondence > Copy letter to start new one
- Fix professional contact xad rendering with no address
- Fix enquiry report sql issue
- Unlimited patient events
- Fix create and open location regression
- Statutory Reporting > Ability to generate a preview or subset of upcoming submission

Release Notes for CareRight 7.5.18

ICD-10 13th Edition

Licencing resolved.

Customers are encouraged to discuss with their coding teams any relevant changes, and new **Diagnosis Codes** that may apply from 1st of July.

These can be updated via **Admin > Admission > Episode Diagnosis Codes.**

Grouper Plus Content Services

Updated to 2025.1.3.

Admission > Diagnosis

Minor usability enhancements to reduce errors, and to make subsequent diagnosis clusters slightly easier to manage when adding in bulk.

Defects & minor enhancements

- Add "Another term" to other stat reports

- Admission > Shift handover assessment > refactor to the helper, show

- Always show primary_phase_type and separation_primary_phase_type

- Fix to show fields if @episode.is_palliative_care?

- MHR dischage_summary doesn't need contact details

- Patient Accounts > Enquiries > Print selection of invoices

Release Notes for CareRight 7.5.19

Defects & minor enhancements

- Fix HCP values for pre 1st July 2025 admissions vs post 1st July 2025 admissions for mode of separation

- Remove admission date sorting from location occupancy for older SQL Server customers

- Fix admin grouper certificate page

- For group location assignments, default to including non open locations

Release Notes for CareRight 7.5.20

Defects & minor enhancements

- Added Patient Relationship Demographics Standard Report

- Assessments> handle health fund field error and show warning when edit

- Alert Notices > Fix broken HTML

- Fix the primary-form-controls covering the assessment content
