

Fluid Charts

Last Modified on 15/04/2025 4:36 pm ACST

Charts are an evolution of the CareRight *Measurements & Metrics* and *Smart Forms (Assessments)* capabilities.

 **Experimental feature: This is not generally available to all customers at this time, and is subject to further revision.**

We have extended the core capabilities of our **Metrics** and **Assessments** functionality; allowing for a **Fluid Chart** to be created. This is different from a Chart as no graphing is necessary but Input and Output metrics must be totaled for the day.

[Dashboard](#) / [Administration](#) / [Assessments](#)

Chart

Title	Fluid Input / Output
Description	Fluid Input / Output
Associated Assessment Name	Fluid Assessment
Plan Assessment Name	
Show When Admitted	No
Enabled	Yes
Pin To Patient Header	No
Default Display Behaviour	day
Default Display Frequency	Weekly
Clinical Guidance URL	
Supports observation modifications?	No
Task Type	
Renderer	Fluid

Entering Data is still done through an assessment. Backdating **assessed at** allows backdating of measurements if necessary

Fluid Assessment

The fluid chart matches the following metrics to:

inputs:

- ORAL - oral_feed_input_ml
- ENTERAL - fluid_enteral_ml and enteral_meds_ml
- Other (eg TPN) - phng_input_ml

outputs:

- URINE - urine_output_ml and fluid_urine_ml
- VOMITUS - fluid_emesis_ml
- GASTRIC ASPORATE -
- STOOL - stool_output_ml
- OTHER (eg sputum) -fluid_blood_loss_ml

FLUID BALANCE CHART 15/04/2025

New

Intake				Output						
ORAL	ENTERAL	OTHER (eg TPN)	Intake Prog. Total	URINE	VOMITUS	GASTRIC ASPIRATE	STOOL	OTHER (eg sputum)	Output Prog. Total	
00:00	77.0	79.0	79.0	235.0	60.0			95.0	22.0	227.0
01:00	71.0	96.0	97.0	499.0	43.0			28.0	50.0	395.0
02:00	70.0	100.0	83.0	752.0	58.0			65.0	84.0	692.0
03:00	90.0	118.0	19.0	979.0	67.0			67.0	11.0	847.0
04:00	19.0	120.0	32.0	1150.0	71.0			100.0	21.0	1071.0
05:00	59.0	54.0	44.0	1307.0	32.0			44.0	98.0	1324.0
06:00	59.0	128.0	77.0	1571.0	43.0			73.0	27.0	1482.0
07:00	17.0	40.0	83.0	1711.0	82.0			87.0	40.0	1782.0
08:00	87.0	106.0	50.0	1954.0	85.0			32.0	22.0	1948.0
09:00	Water	82.0	116.0	61.0	2213.0	96.0		72.0	58.0	2246.0
10:00		74.0	118.0	50.0	2455.0	84.0		47.0	Suctioned clear sputum *** 12.0	2473.0
11:00	52.0	154.0	95.0	2756.0	68.0			98.0	57.0	2760.0

Pagination of the results is Per day to ensure that:

- Intake Total
- Output Total

is totaled correctly for each day.

We expect to further evolve this functionality to integrate more deeply with our workflow capabilities and automated scoring. IE; where observations and the guidance of your clinical governance standard recommend a *Clinical Review*; automatically prompting clinical staff to create appropriate Followups, supporting Clinical Notes for any interventions.
